

Una Europa Module Exchange: FAQs for UZH Outgoings¹

Factsheet, Version 2, 1 September 2026

1. How will the transfer of ECTS credits work?

Upon completing a module successfully, the host university will issue your transcript of records that we will receive directly. We will forward it to your home institution, which will handle the transfer of ECTS credits. The ECTS accreditation for the modules recognized within your degree is legally established. Please consult the module selection tool on the [website](#) to see which modules are recognized within your degree or contact us at dsaimodules@le.uzh.ch

If you have any other questions regarding the recognition of the ECTS credits, please reach out to the person responsible, as listed below.

Master's Program	Institute/ Department	Person of Contact /
Applied Probability and Statistics	Studiendekanat MNF	Gessica Pezzullo, gesuche@mnf.uzh.ch
Digital Skills	Digital Society Initiative	Ursula Brack, digitalskills@dsi.uzh.ch
Artificial Intelligence	Dekanat WWF	Nicola Wenning, anrechnung@oec.uzh.ch
Data Science	Dekanat WWF	Nicola Wenning, anrechnung@oec.uzh.ch
Information Systems	Dekanat WWF	Nicola Wenning, anrechnung@oec.uzh.ch
Software Systems	Dekanat WWF	Nicola Wenning, anrechnung@oec.uzh.ch
People-Oriented Computing	Dekanat WWF	Nicola Wenning, anrechnung@oec.uzh.ch

¹ A UZH-outgoing student is someone enrolled at UZH who is pursuing to take courses at another university as part of an exchange.

2. Where exactly in my curriculum will the ECTS credits be recognized?

The area of recognition of your ECTS credits gained in the module exchange depends upon the Master's Program you're enrolled in. Below you will find a table of the eligible Master's Programs and the area where the ECTS credits will be recognized.

Master's Program	Area of recognition	Additional notes				
Applied Probability and Statistics	electives	Please note that not only the modules offered by partner universities, but also those offered by UZH will count towards your elective area. Modules offered by UZH can be booked directly through the UZH course catalogue.				
Digital Skills	Various Module Groups, see specification on the right (e.g., the 5ECTS credits of the module "Engineering of Machine Learning systems" will be recognized in the module group "Programming, Machine Learning & AI")	Host University	Module Title	ECTS	Module Group	
		UH	Engineering of Machine Learning Systems	5	Programming, Machine Learning & AI	
		UH	AI in Society	2-3	Programming, Machine Learning & AI	
		UNIBO	Data Science for Lawyers	6	Digital Skills & Tools	
		A further 3 ECTS can be chosen freely. See further information here: https://www.dsi.uzh.ch/en/education/digital-skills/curriculum-study-path-content.html				
Artificial Intelligence	INF elective area	Please note that max. 6 ECTS will be recognized within your degree programme, irrespective of the original number of ECTS of the module.				
Data Science	INF elective area	Please note that max. 6 ECTS will be recognized within your degree programme, irrespective of the original number of ECTS of the module.				
Information Systems	INF elective area	Please note that max. 6 ECTS will be recognized within your degree programme, irrespective of the original number of ECTS of the module.				
Software Systems	INF elective area	Please note that max. 6 ECTS will be recognized within your degree programme, irrespective of the original number of ECTS of the module.				
People-Oriented Computing	INF elective area	Please note that max. 6 ECTS will be recognized within your degree programme, irrespective of the original number of ECTS of the module.				

3. Are there language requirements?

Students are independently responsible for making sure that they meet the language requirements for the course they wish to take. Generally sufficient command of the main language of instruction is required, which equals a C1 level or higher (cf. Common European Framework of Reference for Languages, CEFR).

4. In which stage of my Master can I participate?

Students should not participate in the Una Europa Module Exchange in the last semester before graduating. The semester dates of the participating universities vary, so it cannot be guaranteed that students will receive the ECTS credits and transcript of records in time for graduation. Other than that, students are free to choose the timing of the module exchange.

5. How much does the Una Europa Module Exchange cost?

Students who are enrolled at one of the partner universities do not have to pay any additional tuition fees.
